ASSAD KHURSHID

DOB: April 09, 2002, Haripur, Pakistan

Address: University str 11 | 03046 Cottbus
Phone: 01789392803 | **Email:** assadkhurshid91@gmail.com
LinkedIn: https://www.linkedin.com/in/assad-khurshid-datascientist/
GitHub: https://github.com/AssadKhurshid

Education

10/2024 – Present

M.Sc. Artificial Intelligence
Brandenburgische Technische Universität Cottbus–Senftenberg, Germany, Germany

- **Focus areas:** Machine Learning, Computer Vision, Generative AI, Introduction to Mathematical Methods, Causal Data Science
- **Expected graduation:** 12/2027

09/2020 – 06/2024

B.Sc. Computer Science
University of Haripur, Pakistan

- **Focus areas:** Computer Architecture, Big Data, Operating Systems, DBMS, SQL, Mathematics, Probability & Statistics, Computer Networks, Cloud Computing
- **Bachelor's Thesis**: Real time Helmet Detection and license plate violations
- **Final Grade: 3.79/4** (4 - highest)

Project Experience

10/2025

Customer Trend Analysis – Business Intelligence Dashboard
Developed **data-driven analytics solution** to identify customer purchasing patterns and revenue trends

- Extracted and transformed **customer transaction data** using SQL queries and CTEs
- Performed **exploratory data analysis** and customer segmentation using Python
- Designed **interactive Power BI dashboard** for KPI visualization and trend monitoring

Tools & Libraries Used: Python, SQL, Power BI, Pandas, NumPy
Project: https://github.com/AssadKhurshid/Customer-Trend-Analysis-using-SQL-Python-Power-BI

05/2025

Time Series Power Consumption Forecasting
Designed end-to-end forecasting system for household and industrial energy consumption

- Performed EDA and feature engineering on energy datasets
- Implemented ARIMA, XGBoost, and LSTM achieving up to **85% forecasting accuracy**
- **Optimized model pipelines, reducing deployment cycles by 30%**

Tools & Libraries Used: Python, Pandas, Scikit-learn, TensorFlow, Matplotlib
Project: https://github.com/AssadKhurshid/energy-forecasting-xgboost

10/2024

License Plate Detection – Computer Vision
Developed **real-time object detection** model for automatic license plate recognition

- **Implemented YOLOv8** with OpenCV integration for video stream inference
- **Achieved reliable detection across multiple lighting and environmental conditions**
- Deployed model **in Docker** for scalability and **faster inference times**

Tools & Libraries Used: Python, Ultralytics, OpenCV, PyTorch, Docker
Project: https://github.com/AssadKhurshid/Computer-vision-lisence-Plate-Detection

08/2024

Bureaucracy Buddy – AI Web App (MVP)
Developed **AI-powered web app** to process official German letters, generating summaries, translations, and editable response

- Implemented **plain-language summaries**, deadline extraction, and **EN↔DE translation**
- Built **interactive interface** for response drafting and PDF download
- Deployed **NLP pipeline** using **LangChain** and **HuggingFace**

Tools & Libraries Used: Python, Streamlit, HuggingFace, LangChain, OpenAI API
Project: https://github.com/AssadKhurshid/BureaucracyBuddy-MVP

Professional Experience

10/2025 – 01/2026	**Agentic Ai Internship – Think3DDD, Germany** • Developed and deployed **agentic AI systems** with multi-agent workflows and autonomous tool execution. • Containerized backend services using **Docker, FastAPI, Kubernetes**, boosting scalability by 35%. • Built CI/CD pipelines and DevOps automation, cutting deployment/setup time by **50%**.
04/2023 – 02/2024	**Machine Learning Engineer – Tekvaly, Pakistan** • Developed and **tuned ML models (XGBoost, LSTM, ARIMA), achieving 85% accuracy.** • Optimized metrics → **20% precision improvement** in forecasting. • Integrated TensorFlow & Scikit-learn models with cloud platforms, cutting deployment time **by 40%**.
07/2022 – 02/2023	**Junior Data Scientist – TenX, Pakistan** • Built predictive models to reduce chunk by 12%, **improving retention by 15%.** • Translated business requirements into actionable insights. • Validated and tuned models **→ 20% precision boost.**

Skills

Data Science & Visualization:

Python | Numpy | Jupyter Notebook | Feature Engineering | Advanced Excel | Pandas | EDA | SQL | Statistical Analysis | MLOps | Data Engineering | A/B Testing | ETL | Power BI | Tableau

AI & ML:

Computer Vision & Deep Learning | Machine Learning | Re-enforcement Learning | TensorFlow | PyTorch | OpenCV | NumPy | Pandas | Ultralytics | Devops | Natural Language Processing / NLP

DevOps & Cloud Computing:

Git | Amazon Web Services | Docker | Kubernetes | CI/CD | Data Pipelines | Model Monitoring | REST API

Soft Skills:

Problem-solving | Team Collaboration | Agile Development | Leadership

Certificates

Foundations of Data Science	Coursera
Get Started with Python	Coursera
Translating Data into Insights	Coursera
The Power of Statistics	Coursera
Regression Analysis: Simplify Complex Data	Coursera
Machine Learning A-Z: AI, python, R + ChatGPT prize[2025]	Udemy

Languages

- English: Fluent C1
- Urdu: Native C2
- German: Conversational B1
